

Cisco Unified IP Phone 7960G

Cisco® Unified IP phones provide unmatched levels of integrated business capabilities and converged communications features beyond today's conventional voice systems, surpassing competitive offerings. As the market leader in IP telephony, Cisco Systems® continues to deliver unparalleled end-to-end data and true voice-over-IP (VoIP) solutions, offering the most complete, stylish, fully featured IP phone portfolio to enterprise and small- and midsized-business customers.

Figure 1. Cisco Unified IP Phone 7960G

The Cisco Unified IP Phone 7960G, a key offering in the IP Phone portfolio, is a full-featured IP phone primarily for manager and executive needs. It provides six programmable line/feature buttons and four interactive soft keys that guide a user through call features and functions. Audio controls for duplex speakerphone, handset and headset. The Cisco Unified IP Phone 7960G also features a large, pixel-based LCD display. The display provides features such as date and time, calling party name, calling party number, and digits dialed. The graphic capability of the display allows for the inclusion of such features as XML (Extensible Markup Language) and future features.
